

# Ninnie Dahlström

.NET DEVELOPER

## PROFILE

A structured and motivated person with extensive experience in the grocery retail sector, where I have worked with checkout operations, dairy, inventory, customer service, and daily store routines. I am used to responsibility, a fast pace, and quick problem-solving, and have built strong confidence in handling both people and practical tasks.

After completing my upper-secondary diploma through Komvux, I began a new career in system development and am now studying to become a .NET developer at YH Akademin. I am developing skills in C#, web development, and modern tools, combining my work experience with a growing technical interest and a strong ambition to advance within IT.

## TECHNICAL SKILLS

- C#
- HTML5
- CSS
- JavaScript
- Git / GitHub
- Visual Studio / VS Code
- SQL (basic)
